Abdul-Ali Al-Ajmi Company – Saudi Arabia

Tech Team Leader | 2025 – Present (Remote)

- Lead a team of developers to design and deliver ERP systems, E-commerce platforms, and internal business applications.
 - Define system architecture and backend structure using **Laravel and Oracle Database**.
 - Review and approve pull requests to ensure clean code and best practices.
 - Plan and manage sprint tasks following Agile methodology.
 - Optimize database queries and backend performance for scalable systems.
 - Coordinate with stakeholders to gather requirements and translate them into technical solutions.
 - Mentor junior developers and provide technical guidance.
-

Full Stack Developer | Nov 2023 – 2025

- Developed and maintained web applications using **PHP (Laravel), JavaScript, HTML, CSS, and Bootstrap**.
 - Designed and managed Oracle databases, including complex queries and stored procedures.
 - Integrated RESTful APIs and built scalable backend services.
 - Implemented role-based access control and secure authentication systems.
 - Collaborated with UI/UX teams to build responsive and user-friendly interfaces.
 - Managed source control and deployment processes using Git and GitHub.
-

XperTire – Amman, Jordan

Oracle Database Administrator Intern | Oct 2022 – Jan 2023

- Assisted in maintaining and optimizing Oracle databases.
- Performed backup and recovery operations.
- Supported troubleshooting and database performance monitoring.

Skills

Backend:

- PHP (Laravel)
- RESTful API Development
- System Architecture Design
- Authentication & Authorization

Frontend:

- JavaScript (ES6+)
- HTML5, CSS3, Bootstrap
- jQuery

Database:

- Oracle Database
- SQL Optimization
- Query Performance Tuning

Tools:

- Git & GitHub
- Agile / Scrum
- Postman
- Deployment & Production Support

Cloud:

- AWS (In Progress – Cloud Practitioner Path)

Data & Analytics:

- Power BI (Dashboard & Reporting – In Progress)

Projects

Graduation Project

Developed an online housing reservation system for the University of Jordan, including:

- User authentication

- Reservation management
- Admin dashboard
- Database design and reporting

Spangle Silver (Freelance)

E-commerce platform with:

- Product & inventory management
- Order processing system
- Admin dashboard
- Secure authentication
- Link: [Spangle Silver](#)

Eurika (Freelance Startup Website)

Developed a company website with dynamic content management.
